

## ProClamp PLUS

Wheel Alignment Clamp

Series 918

Fast and simple mounting of an additional alignment shaft

New Wheel Alignment Clamp ProClamp PLUS simplifies the work routine of wheel alignment.

**NEW**

- New, modern design
- Integrated ergonomic handle guarantees better handling
- Variable positioning of the alignment shaft with the ProClamp Plus simplifies the handling on vehicles fitted with wide or low spoilers

- **ProClamp PLUS is flexible**

The universal clamping device can be adjusted from 12 to 24 inches.

- **ProClamp PLUS is easy to use**

Thanks to the spring-loaded feet, mounting of the clamp even on modern softline rims is simple.
